DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of species 3 with claims 9-55 readable thereon in the reply filed on 06/28/2004 is acknowledged. The traversal is on the ground(s) that the subject matter are interrelated such that a search of the device of Group I would require search of the class and subclass of Group II. This is not found persuasive because the inventions are distinct, as set forth in Paper Mail date 05/26/2004.

The requirement is still deemed proper and is therefore made FINAL.

Allowable Subject Matter

Claims 9-55 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: prior art references do not teach or render obvious an assembly comprising a surface mounted electronic device and a printed circuit board having the structure arrangement as claimed in claim 9.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference A is being cited since it shows a ball grid array type package using an adhesive film.

This application is in condition for allowance except for the following formal matters:

Claim 12 is objected to because of the following informalities: line 3, "height" should be --width--. Appropriate correction is required.

Claim 22 is objected to because of the following informalities: line 5, "the four corners" should be --four corners-- for lack of antecedent basis. Appropriate correction is required.

Claim 42 is objected to because of the following informalities: line 1, "The surface mount device" should be --The assembly--. Appropriate correction is required.

Cancellation of non-elected claims 1-8 and 56-92.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
